

Robert Garry Law (Garry)

Education

- **Canterbury University Bachelor of Engineering (Civil)**
 - **Stanford University Stanford Executive Programme**
-

Strengths / Roles

Contracts Procurement expertise – alignment of contract forms to projects, professional services, capital and operations / maintenance contracts for general civil work

Urban Water / Wastewater Technical, project management, strategic, management

Stadia Sports stadium concept, design construction operation

Museums Governance, funding, project initiation, consulting advice

Historic Heritage Technical (archaeology) and governance.

Dams Technical, construction, management

Water Resources Technical, policy, general management, policy advocacy

Urban Solid Wastes (Recycling / composting and landfills) Strategic, managerial, consulting advice

Climate Change Attendee at two Conferences of the Parties of the UN Framework Convention on Climate Change as an environmental organisations representative as part of the NZ Government delegation. Policy advocacy

Current Availability

Gateway Reviewer – Past projects include: Waterview Tunnel, CERA Horizontal Infrastructure recovery, CERA Anchor Projects Progress, Transmission Gully stage review, Waikato Expressway, Northern Gateway, Kaikoura Recovery.

Professional Experience

1997-2014: PRINCIPAL, LAW ASSOCIATES LTD) www.lawas.co.nz

Operation of a consultancy with public and private sector clients providing services in project management, water and wastewater engineering, strategic advice, planning consents, sports stadium development, heritage management.

Key Achievements:

- Assisting Resolve Group Consultants with construction contract dispute resolution.
- Tender documentation and letting six professional services contracts for Rodney District Council (with others), three operations / maintenance contracts (with others).
- Tender documentation and letting of a water and sewerage reticulation managing contract, Pimpama Coomera, for Gold Coast City (with others).
- Documenting and running an EOI process for Metrowater (an Auckland City owned company) for their Network Services contract renewal.
- Establishing panel of consultants and panel of contractors for Metrowater.
- Contract document preparation for Pimpama Coomera alliance contract for Gold Coast City Council.
- Input of water resources and management content of review of the rural part of the Franklin District Council district plan (with others).

- Contractual advice in setting up relationship contracts for water /wastewater system maintenance and operations, North Shore City Council.
- Review of the Archaeology of the Bay of Plenty for the Department of Conservation – published - <http://www.doc.govt.nz/upload/documents/science-and-technical/sap246.pdf>
- Strategic Advice – commercial refuse recycling and composting operation, Auckland.
- Reviewer, gateway project reviews, NZ Treasury.

1995 -1997: MANAGER BRISBANE WATER, BRISBANE CITY COUNCIL

Responsible for managing a business unit with staff numbers of 1050, income of A\$158m and a capital programme of A\$60m per annum

Key Achievements:

- Undertook a thorough review of work operations from a work unit level working against external benchmarks with a resulting 14% reduction in the work force, without major outsourcing or retrenchments.
- Rationalisation of assets needed for the business – reviewing need for retention, redundancy in multiple assets.
- Achieved the establishment of the business as a business unit with its own advisory board, balance sheet, establishment charter and statement of corporate intent agreed with Council.
- Proposed the corporatisation and financial restructuring of South East Queensland Water Board – which subsequently happened clarifying the ownership and yielding \$90 M to the Council.

1994-1995: PRINCIPAL, LAW ASSOCIATES LTD.

Operation of a consultancy with public and private sector clients providing services in project management, water and wastewater engineering, strategic advice, resource management consents, sports stadium development.

Key Achievements:

- Project management and subsidiary projects engineering for development of Mt Smart Sports Stadium as Rugby League Ground.
- Advice to Huakina Trust and Waitakere City Council on need for an emergency water supply in response to a drought resulting in the \$70 M project being held until critical point reached, by which time the drought had broken and the project avoided.
- Achieving resource consents for an irrigation water abstraction involving hydrological modelling and resource consent application reports.

1991-1994: CHIEF EXECUTIVE, WATERCARE SERVICES LTD.

This company was owned by the Auckland Regional Services Trust. Its Board, a mixture of business people and politicians is responsible to the Trust for the business-like delivery of bulk water and wastewater services to the people of Auckland.

Key Achievements:

- Corporatisation of this unit as a Local Authority Trading Enterprise owned by the Regional Services Trust.

- Rationalisation of catchment land, headworks, laboratory and water treatment assets around needs of the business.
- Undertook a grass roots examination of cost drivers in the business.

1986-1991: GENERAL MANAGER OPERATIONS, AUCKLAND REGIONAL COUNCIL

This position reported to the Chief Executive and was the second most senior office of Council. Responsibilities included bulk water supply, bulk sewage, drainage and treatment, refuse disposal, regional parks and regional roads.

Key Achievements:

- Reformed a structure of departments which had existed as the sections which joined the Council when it was formed 20 years earlier. Water and sewerage functions were joined into one operation at this time.
- Undertook major studies of the future supply of water to the region and the options for the disposal of sewerage effluent.
- Took a major leadership role in the work which went to the formation of businesses out of Council functions.
- Client representative and engineer to the contract for the new ARC headquarters building
- Development and operation of Mt Smart Stadium
- Facilities for the 1990 Commonwealth Games.
- Transfer of Hunua and Waitakere water catchment lands to ARC Parks.

Earlier Experience - In Brief

Chief Engineer and Manager Water, Auckland Regional Council.

Resident Engineer of Mt Smart grandstand construction.

Civil operations and maintenance engineer, Auckland international Airport.

Engineering roles in water design, dam construction and foundation engineering in New Zealand and the UK.
